

LEAH & JASON

Technology led us to each other. We met online and after several conversations, we decided to meet in person. We met at a restaurant, and we had a great time talking for hours. While we were dating, we shared some of our favorite activities: visiting with family and friends, going to shows and sports events, playing board games and puzzles, going to church together and participating in community activities. We have continued with all of these activities during our nine years together, including seven years of marriage.

HELLO!

adoptive parents. We are incredibly humbled that you are taking the time to get to know us. We are excited to start our family through adoption. We have a fun, happy relationship that is based on mutual love and respect. Our dream is to have a family filled with the laughter and playfulness of children. We know it takes a village to raise a child, and we have the most encouraging, supportive village surrounding us.

We thank you from the bottom of our hearts for considering us as potential

Leah grew up in central Ohio with a tight-knit and loving family. She earned her Master's degree and works in Human Resources. She loves to go on nature walks, watch Ohio State football games and cook and entertain for family and friends. Leah's always on Pinterest trying to find new recipes and craft projects! She loves to read and sets a yearly goal for herself. This year it's 95 books! Jason often jokes that they have a library in their home!

Jason grew up in Dayton. He earned his Bachelor's degree and works in financial management for a local bank. He is fascinated with aircrafts and enjoys attending airshows. Both his dad and uncle are pilots and has always enjoyed being around planes and helicopters. Jason likes painting and assembling various models too. He loves music and is always quick to be able to name a band or song. Jason admits to being a Science-fiction nerd and can recite lines from any Star Wars movie!

LEAH (IN JASON'S WORDS) Leah is truly my soulmate. She keeps me level-headed when I'm frazzled and never lets me give up on anything. She has a heart of gold and always puts others before herself. She is known by our family and friends as the motherly one. She is selfless, loves all unconditionally and always looks out for others. She is the glue that holds our family together, not only because she is kind and compassionate, but because she is organized and manages the details of our life so flawlessly. She is smart, kind, honest and loving. She is constantly giving 110% into everything. She cherishes our family and is always willing to help others who need it. I know without a doubt that she will be an incredible mother.

JASON (IN LEAH'S WORDS) Jason is the perfect combination of everything in life which is what made me fall in love with him. He is compassionate, loyal and hardworking. He is truly my best friend. I can count on him to be supportive during difficult times and eager to celebrate the great moments, both big and small. He makes me laugh at times until my sides hurt even if I'm having a rough day. He loves being silly and making everyone around him smile and laugh. He has been my home and comfort from the moment I met him. He has a magnetic aura and everyone who meets him is forever changed for the better. He will go to the ends of the Earth for those he loves. I see how he is with our niece and nephew, and I know deep in my heart he will be a great dad.

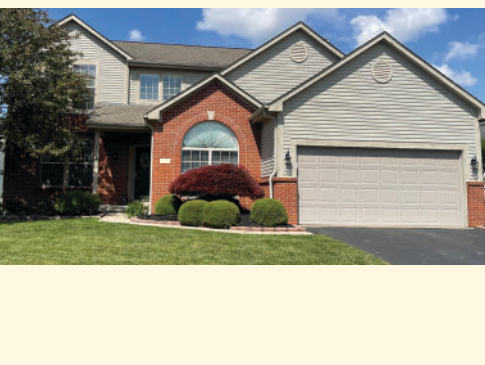

WE PROMISE:

- Provide a safe home full of unconditional love
- Give a thousand hugs and kisses every day
- Read bedtime stories, help with homework, bake cookies, ride bikes, and have dance parties in the living room
- Go on family vacations, throw birthday parties, and spend time at the dinner table
- Encourage, support, and nurture

Our hearts and home are filled with love, grace, joy and a lot of laughter. We cannot wait to begin this next chapter together.

FAMILY

We are both blessed to have wonderful families and enjoy spending a lot of time with them. We are fortunate to have them live close to us. Most of Leah's family lives about 20 minutes away from us, while Jason's is about an hour away. We love having dinners, BBQs, birthdays, holidays and fun activities together. One of our favorites is picking pumpkins and apples together in the fall. We love spending as much time as possible with our niece and nephew. We love taking them to special events, such as museums and Disney shows, but also watching movies, reading, coloring, performing science experiments, and making pancakes with them!

ASHER & ZOEY

We have our two fur babies, Asher and Zoey. Asher is a nine-year-old Pug and Beagle mix, while Zoey is a one-year-old Boxer and Boston Terrier mix. Going to the local dog park and playing in the backyard are favorite pastimes. Birthdays are never complete without a special cupcake from the dog bakery!

HOME

Our home is settled in a quiet little community in central Ohio. We have plenty of space with four bedrooms and a large backyard. We are located in a great school district and our neighbors are friendly. The neighborhood has lots of kids of different ages, plus there are several parks, playgrounds and community activities throughout the year.

WE LOOK FORWARD TO CONNECTING WITH YOU

If you have any questions for us or would like to speak with us about adopting your child, please contact your case worker at Open Arms Adoptions by calling 330-697-4751 or 614-349-1510.
