# Hello...

We are Adam and Molly. We have been happily married for 5 years and together for 12. We live near Columbus, Ohio. We chose our neighborhood because there are many parks and fun things for kids to do. We are excited about adopting and building a large family. While we don't have biological children, we have a lot of experience with kids. We both come from large supportive and loving families, and have a wide network of close friends.

We have many common interests and love to be outside. Together we like to explore, travel, walk, bike ride, camp, hike, and exercise. We have opposite personalities that complement one another. Family is very important to us, and we value openness and acceptance. We have the same core values and believe in kindness and love.
