Thank you for considering adoption. We know that this is a big decision for you and though we could never understand how hard this decision must be, we hope knowing that your child will be loved and cared for deeply brings you peace of mind. We promise to always love and protect our child. We promise to always share who they are and where they came from with them to the best of our abilities. We promise to always honor you and the love you have for them. We know that without you and your selflessness, we wouldn't have the incredible gift of becoming a family. Please know that even though we have not met, you have been on our minds.

We have been together for 5 years, but we met for the first time in 2014. We reconnected in 2019. We are huge lovers of music and the arts. We enjoy visiting new cities, spending time outdoors with our pups, and cozy days at home. Our family and friends are very important and involved in our life. We are extremely lucky to have an amazing support system and to be surrounded by so much love. Our home is always filled with music and laughter.

From the beginning of our relationship, we both expressed how important it was for us to start a family one day. Being adopted at birth Carmen has always known that she wanted to adopt. Starting a family has always been important. Adam was immediately on board and has been extremely excited about this journey.

I love painting, music, fashion, crafting, and traveling. I work as a nail artist at an incredible woman owned salon.

I was adopted as an infant and have been blessed with a wonderful adoptive family and an incredible biological family. I have been lucky to be reconnected with my biological mom and siblings. It has been nothing short of wonderful, and I hope that one day our child will experience that same joy.

Thank you for taking time to learn more about our family and considering us as your child's adoptive parents. We would love to have a relationship and will always respect you and what you are comfortable with. We understand the importance of your role and will always support our kiddo in exploring where they came from. You will always be a part of them and a part of our family. We will always encourage our child to be themselves, to live life fearlessly, and to love others. We know that all starts with you, and we promise to see it through.

We live in a warm and colorful 3-bedroom home on the street where Adam grew up. Adam's mom lives down the street in his childhood home, we are extremely close and love spending time at each other's homes. We love hosting celebrations, holidays, and the occasional karaoke night.
