Dear Birth Parents,

While creating this profile we feel happiness for what the future may hold for our family, but also profound sadness for the cost of that happiness. We cannot begin to understand the heartbreak you have felt along this journey, but know that our hearts feel nothing but empathy and a dedication to love and raise your child with all that we have to give. We are very open to maintaining a relationship between birth family and adoptive family. They say that love transcends space and time, and that cannot be more true for the love that is felt between you, your child, and their adoptive family.

Our Story

We grew up in a small suburb in Northwest, Ohio where we still reside today. We started dating our senior year of high school and haven't looked back since! We have been together fifteen years and married for six of them. We always knew we wanted to have children, but that dream came to a sudden halt after suffering a few miscarriages and understanding that biological children were not going to be a part of our future. While hard to accept, the idea of adoption became a beautiful path forward. We soon fostered a child from our local children's agency, and that led us to looking for more permanency through Open Arm's Adoptions.

While Cody is a steady, calming presence, Kasey is quirky and lighthearted. Our love of the outdoors and adventure is balanced with a joy for staying at home and reading a book by the fire. We love animals and one of our dreams is to open a rescue for hound dogs.

We love to laugh and spend time with our family and friends. Both of us come from blended families and we spend holidays together, plan game nights, go on bike rides, and vacation with both of our families.

We stand on firm ground that every one should be able to do what brings them happiness, especially kids. Whether it is baseball, theater, dance, or catching Pokemon, we are there cheering on the people we love.

Our love and respect for each other is immense and we can't wait to wrap ourselves around a little one.

Kasey

I am a 6th grade math teacher at a local middle school and I absolutely love my career. I enjoy my students and try my best every single day to be the person they can count on.

In my free time I really enjoy reading and crafting. I love hanging out with Cody and watching which ever sport is on TV; football and baseball are my favorite. I love playing pickle ball, golfing, and taking our dogs for walks. Cody and I are really interested in National Parks and we like to travel whenever we can.

Different hobbies grab my attention and I like to give everything a try. From crocheting and jewelry making to trying to learn Spanish I like to dip my toe in different experiences.

Some of the things I value are humor, hard work, and curiosity. I look forward to the day when our child can join us on our fun adventures and we can make our own memories as a family.

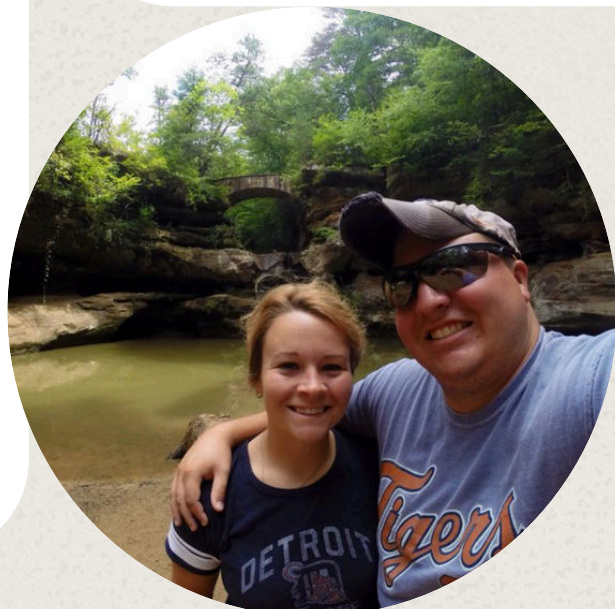

Cody

I am a project manager for a local restoration company. I enjoy going to work everyday; it's fast paced and every day has something a little different going on!

In my free time I like to be outdoors, be it hiking, skiing, or taking our dogs to the dog park. We love to visit the National Parks and have done a handful of long, overnight hikes, including hiking rim to rim in the Grand Canyon. I also like to relax by watching sports and reading books.

Occasionally I volunteer my time by helping transport beagles to and from a local rescue in Michigan to approved adopters around the country.

Some of things I value are honesty, relationships, and time . I am looking forward to the time we will spend with our little one making memories as a family.
