Hello!

By Jacob:

Chase is a force to be reckoned with. He is headstrong, a planner and a go-getter and a great partner. He is somebody who you can lean on and truly trust with whatever you need. He's determined to make the best of life and has a plan to execute it. He is a family man who always puts others' needs before his own. Chase has always loved the little things in life between the holiday season to taking our dogs for walks. Chase is a home maker who has really transformed our house into a home for our future.

By Chase:

Jacob is a free spirit and a creative. He is extremely caring and empathetic, while very competitive. Even if Jacob is feeling nervous or uncomfortable, no one would be able to tell because his personality lights up a room. He is a great leader because he leads with positivity, and is often the glue that brings many relationships together. Jacob has the ability to me to not take myself so seriously, and participate in situations I would otherwise avoid or not consider. He is energized by socializing, and the ability to create freely.

Home + Life

We recently completed building what we hope to be our forever home in December 2025; fulfilling what has been a goal for us for nearly 10 years. We've carefully moved and planned over several years to achieve this dream, and we are most excited about the holiday traditions we can build here, and the roots it plants for our future family. To the right is an image of our home, and a photo of us after we chose the lot to call ours. Also shown is our previous home decked out for the holidays, which we hope to take even bigger soon! In our new home we are equal distances from both of our parents, less than 10 minutes from both jobs, and walking distance to our elementary and middle school that are in a top rated school district. We are so grateful we have the opporuntity to provide a loving home and community.

Jacob grew up playing volleyball including varsity boys and league in high school. He went on to coach girls at his high school before becoming the assistant varsity girls coach for Dublin Jerome High School. The coaching staff have become an extension of our family, and we are so lucky to have them! In the off-season, Jacob plays on a traveling volleyball league that allows us to travel to many different cities throughout the year..

We are both very opposite, but it is why we work so well together. Jacob is the administrator of Balanced Family Academy of Dublin - Innovation, and spends his days working directly with children and parents. Chase is an account manager for national chain pharmacies at Cardinal Health and spends his days resolving issues, strategizing, and ensuring pharmacies have access to medications to meet patients' needs.

Dogs are also a very important part of our lives, as we both grew up with pets and would want our child to as well. We currently have 4 dogs, and have had two previous pups we miss everyday. Hachi (centered golden retriever) is our old man, who turned 14 in May 2026. We have had him for 7 years after we took him in from a family who could not move overseas with him. The three dogs pictured individually are Sandy (Husky), Benny (Labrador) who both will 3 years old in summer 2027. We also have Lyla (Great Dane) who joined us in the summer of 2026. We took in Sandy and Benny near the same time, and love to watch them play just like brothers and sisters would! Lila has made a great addition to our family and truly completes the crew. We know we can learn a lot from pets, and we are so grateful for our furry kids!

Family + Friends

We both come from large families, and consider family an important part of our lives. Jacob is the youngest of 4 siblings, and Chase is the youngest of 2. Both of us have numerous cousins, aunts, uncles, and DOGS! When the entire family gets together frequently, there are 10 dogs running and playing on the acres both of our parents live on. For family that is far away, we don't let distance keep us from getting together, and we are always down for travel!

When we aren't together with family, we are meeting or traveling with friends. Many of our friends have children, are planning to have children, or work with children which provides a huge support system for our family as we embark on our adoption journey. Our friends are so excited for us to welcome a little one into our lives and for our children to grow up as friends as well.

To Mom:

THANK YOU for considering us during this very important part of both of your lives. We understand this can be an extremely difficult time in your life, but know that we are here to support you through this journey. You would always be part of our family's story. We hope to keep in touch as much, or as little, as you'd like, and we'll follow your lead. Our promise to provide the best life we possibly can, where he/she can flourish and thrive. Know your child will be surrounded by immense and unconditional love from all corners of their life.
